Training Plan for Course 2273, *Managing and Maintaining a Microsoft Windows Server 2003 Environment*

This course consists of Courses 2274, *Managing a Microsoft Windows Server 2003*, and 2275, *Maintaining a Microsoft Windows Server 2003 Environment*. Course 2274 is a five day course and Course 2275 is a three day course. The following strategy has been employed to condense the material and labs into a 5 day course, combining traditional Instructor Led Training (ILT), eLearning, and Self-Study. Each day's worth of ILT material to be delivered in one week.

Classroom Setup

The initial classroom setup is for Course 2274. After the modules and labs from Course 2274 have been delivered, the classroom will be modified to support lab activities from Course 2275.

Courses 2274 and 2275, Five-Day ILT Delivery

Week 1 of Classroom Instructor-Led Training (6:15)
- Course 2274, Module 1, "Introduction to Administering Accounts and Resources" (2:15)
